GENERAL LEASING REGULATIONS OF 2013

The US Department of Interior approved the Navajo Nation General Leasing Regulations of 2013, giving the Navajo Nation authority to issue its own leases, permits, agriculture, public relations, education, recreation, and residential leases on fee and trust lands. Thus, the Navajo Nation established a General Land Development Department to process all leases and conduct environmental reviews. All leases, permits and Rights-of-Way are electronically processed and stored in the Navajo Nation System.
